

# What is PQView?

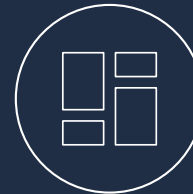

PQView 4 is the flagship product of Electrotek Concepts, Inc.—built from the ground up to be the best-in-class Power Quality Data Concentrator and Analysis Software.

## Powerful Data Concentrator

PQView Power Quality Data Manager Service (*PQDMS*) is a data concentrator that allows for direct communication with, and data retrieval from, many popular power measurement devices and systems.

## Tools to Convert Data into Information

**PQView includes powerful web based graphical interfaces and analytics tools including:**

**Dashboards**

**PQ Analysis Tools**

**Reporting Tools**

**Fault Location**

## Powerside Acquires Electrotek Concepts

# *PQView Ecosystem =* **Data to Information**

# 1

## **Data Sources**

### **Intelligent Devices**

Meters, Relays, RTUs, PQ Analyzer,  
Fault Recorder

### **Database or System**

Scada, OMS, DMS, MDMS, AMR,  
Historian, Weather

### **Files**

IEEE® COMTRADE IEEE® PQDIF

# 2

## **PQDMS, PQView & PQView Database**

### **User & Profiles**

Administrator, Development Kits API & SDK

# 3

## **User Experience**

Dashboard, PQ Analysis, Reporting  
Tool, Fault Location
